[Chapter 3: Functional Performance Criteria \(FPC\)](#)

Criteria		Conformance Level	Remarks and Explanations
302.1 Without Vision	Software	Does Not Support	There are points within the software where a screen reader will not appropriately read labels (such as Audio Effects properties). There are areas of the user interface that require clicking.
302.2 With Limited Vision	Software	Partially Supports	For any elements that need to contrast, DPI changes are supported. Highlighting hesitations reduces text contrast to 2.8:1. All other text complies to either 4.5:1 for standard size or 3:1 for large text.
302.3 Without Perception of Color	Software	Supports	The software is usable without perception of color being necessary, but some users may have difficulty.
302.4 Without Hearing	Software	Supports	When audio is generated from the product, there are other visual indicators of what audio is being generated, such as a playhead, text display of the audio, and the audio waveform.
302.5 With Limited Hearing	Software	Supports	When audio is generated from the product, there are other visual indicators of what audio is being generated, such as a playhead, text display of the audio, and the audio waveform.
302.6 Without Speech	Software	Supports	Users that cannot record their own audio can import standard audio files, as well as generate voice audio via text-to-speech.
302.7 With Limited Manipulation	Software	Partially Supports	Primary controls can be navigated via keyboard or mouse, but Audio Effects and content generation can only be manipulated by using a mouse.
302.8 With Limited Reach and Strength	Software	Supports	The product can be used with limited reach and strength.
302.9 With Limited Language, Cognitive, and Learning Abilities	Software	Partially Supports	The software is designed to be an easily approachable audio editing tool. It makes it easier to edit audio via editing text. This is an easier approach than editing audio using waveform-based editors. There are more complex features like audio effects that could be more challenging for people with limited cognitive, language or learning abilities.
